NAME: _____

SCIENCE	
SCIENTIFIC ENQUIRY	**P3(i)**

- Request events/activities, *e.g. reaching out to a sound maker/action toy* ……..
- Prompt an adult to continue an investigation or activity ……..
- Explore object or environment using a variety of senses & repeat action ……..
- Attends to object being hidden, e.g. in a container, in sand & then actively tries to find it ……

Performance Description – P3(i) **Pupils begin to communicate intentionally. They seek attention through eye contact, gesture or action. They request events or activities, *e.g. reaching out towards a sound making object.* They participate in shared activities with less support. They sustain concentration for short periods. They explore materials in increasingly complex ways, *e.g. pressing hard objects into soft textures.* They observe the results of their own actions with interest, *e.g. scrunching up paper and examining the product.* They remember learned responses over more extended periods, *e.g. reaching out to touch a live animal with caution and sensitivity.***
