SCIENCE	
SCIENTIFIC ENQUIRY	**P3(ii)**

- Show consistent preference to tactile exploration of different textures …….
- Show consistent preferences to different tastes/smells ……
- Attempt to discover what is in a container by looking/reaching/ tipping …….
- Look for a favourite sound making object from choice of 3 ……

Performance Description - P3(ii) **Pupils use emerging conventional communication. They greet known people and may initiate interactions and activities, *e.g. switching on a favourite piece of equipment in the light and sound room.* They can remember learned responses over increasing periods of time and may anticipate known events, *e.g. balls falling and bouncing on the floor.* They may respond to options and choices with actions or gestures, *e.g. touching one substance rather than another.* They actively explore objects and events for more extended periods, *e.g. feeling the textures of different parts of a plant.* They apply potential solutions systematically to problems, *e.g. tipping a container in order to pour out its contents.***
