NAME : _____

SCIENCE	
LIFE PROCESS & LIVING THINGS	**2A**

- Know that animals/plants need food, water, air, light to live …….
- Know all stages of animal/plant growth & reproduction …….
- Sort animals/plants into groups according to observable features *e.g. number of legs, shape of leaf by choosing own criteria* …….
- Know that different living things are found in different places *e.g. ponds, woods* ……

Level Description – 2A **Pupils use their knowledge about living things to describe the basic conditions *e.g. a supply of food, water, air, light* that animals & plants need in order to survive. They recognise that living things grow & reproduce. They sort living things into groups, using simple features. They describe the basis for their groupings *e.g. number of legs, shape of leaf*. They recognise that different living things are found in different places *e.g. ponds, woods***
