Name : _____

SCIENCE	
PHYSICAL PROCESSES	**2B**

- with support, predict whether an object is magnetic or not …….
- find the equipment needed to make a simple circuit using wires, bulbs & a power source ……
- describe movement in terms of speed, acceleration, direction …….

Level Description - 2B Pupils begin to know about a range of physical phenomena & recognise & describe similarities & differences associated with them. They compare the way in which devices *e.g. bulbs* work in different electrical circuits. They compare the brightness or colour of lights, & the loudness or pitch of sounds. They compare the movement of different objects in terms of speed or direction ……
